

- Larger 200 x 300mm (7.8 x 11.8") embroidery area
- Fast embroidery and sewing speed
- 11 1/4" (285mm) long arm
- ICAPS technology keeps foot pressure consistent
- Expanded sewing stitch selection

With more than 110 years of sewing excellence stitched in, we bring you the limited edition long arm Innov-is V5LE.

In stunning metallic blue, this user-friendly sewing, quilting and embroidery machine features a larger embroidery area, expanded library of sewing stitches and much, much more.

Freedom to move

To help you realise larger, more elaborate embroidery designs we've expanded the Innov-is V5LE's embroidery area to 200 x 300mm (7.8 x 11.8"). Coupled with a long sewing arm (11 1/4"/285mm) we've given you more room to work, making those extra-large quilting, fashion and interior design projects much easier.

Your creativity has no limits

Now with 514 decorative and 138 utility stitches, it has never been easier to create wholly unique and beautiful sewing projects for yourself, your family and your home. Choose from 224 Classic Japanese, Vintage, Trendy and © Zündt embroidery designs.

'Sew' easy to use

With a 7"/17.8cm LCD touchscreen, user-friendly controls, in-built tutorials, quick set bobbin and automatic setting suggestions (and more), it's never been easier to embroider. Whether you're a skilled stitcher, or complete beginner, the V5LE is the only crafting companion you need.

More time doing what you love

With embroidery speeds of up to 1,050 stitches per minute you can stitch intricate designs, faster. Your time is valuable and should be spent creating, so our simple slide-on frame mechanism lets you quickly attach and remove embroidery frames. The automatic thread trimmers instantly cut jump threads to help save you time and effort, while giving a professional finish every time.

Instant pattern access

Use the built-in USB port to quickly and simply import or export designs via your PC or USB drive. Using our unique PE-Design software* (on your PC), you can create your own embroidery stitch data or customise your V5LE's patterns to get the look that's perfect for you.

*optional purchase necessary

Larger embroidery area

We've increased the V5LE's embroidery area to 200 x 300mm (7.8 x 11.8"), so you can create larger, more intricate designs with no need to re-hoop.

Eco-mode (sleep)

With the Eco-mode function, the Innov-is V5LE will automatically switch to an energy-saving sleep mode after a period of non-use – great for the environment, and your electricity bills too!

Easy-to-use features

Automatic electronic needle threading

Threading the needle is so simple, just the touch of a button.

Central controls

Handy central controls help make sewing simpler. Electronic touchpads provide fingertip control.

ICAPS

The Continuous Automatic Pressure System (ICAPS) detects fabric thickness while you sew. It automatically adjusts foot pressure giving you even, super smooth stitch length, even when stitching across differing fabric thicknesses. Perfect for free motion embroidery.

Knee lift

Free up your hands using the knee lift to raise/lower the presser foot. Ideal when you've got your hands full with large, bulky projects, like quilts.

Ultra-bright lighting

The V5LE's ultra-bright LED lighting gives a crisp, bright, natural light, so you can see colours and stitch details easily, no matter what your lighting conditions. Fully adjustable, so you can set it at a level to suit you.

Lock stitch function

Use the lock stitch key to automatically tie off stitches at the beginning or the end of the stitch.

Square Feed Drive System (SFDS)

Super-smooth feeding for superior stitch quality, including sideways feeding.

Extra-large sewing space

Sew even larger projects with the flexible, extra-large sewing space, ideal for quilting projects.

Quick set bobbin

Just drop in a full bobbin and you're ready to sew!

Large embroidery area 200 x 300mm (7.8 x 11.8")

Create large embroidery designs with no need to re-hoop.

USB ports

Connect a USB device such as a memory stick or a card reader/writer.

Auto presser foot up/down function

Set the presser foot to automatically go down when you start sewing, and up when finished. Great when you need both hands free on large projects like quilts!

Extra-large colour touch screen

Simply touch the 7"/17.8cm wide-angle screen to:

- Edit on-screen embroidery
- Enhanced text editing
- Customise your settings
- Change to any one of the 13 built-in languages
- View on-screen video tutorials and help guides.

What will you sew today?

With 652 extraordinary stitch designs to choose from, the Innov-is V5LE is packed with creativity. From extra-wide stitches to beautiful, vintage inspired fonts, to saying I Love You in 15 different languages, the V5LE lets you select the right stitch for every mood, project or look you're creating.

Wide stitches

Sew extra-large decorative stitches up to 40mm wide.

Crazy quilting

Specially designed crazy quilt stitches are ideal for the avid quilter. These distinctive designs give you a fantastic range of choice.

Vintage

Add beautiful embellishments that will stand the test of time, with these vintage-inspired patterns.

Heirloom

Stitch that 'something special' into heirloom projects, such christening gowns, wedding dresses and fine table linens.

Add a little love

Create special stitched pieces for loved ones with the 'I love you' design, which comes in 15 different languages.

Multi-directional feed

Be adventurous and sew straight in different eight directions, zigzag in four: all without turning the fabric!

Uniquely creative

Take your pick from 224 embroidery patterns and 17 embroidery fonts, including Cyrillic and Japanese.

Zündt

A range of beautiful design from © Zündt.

Vintage

Recreate classically beautiful designs.

Trendy

Up-to-date fabric effects are yours with contemporary design patterns.

Classic Japanese

Create authentic, eye-catching classic Japanese calligraphy effects.

Special technique designs

Complicated special fabric techniques just got easier with our distinctive special designs.

Floral alphabet

Create a handmade look and feel with the new floral alphabet patterns.
